

EITN FALL SCHOOL IN COMPUTATIONAL NEUROSCIENCE

FROM 15 TO 24 SEPTEMBER 2021
PARIS, FRANCE

For neuroscience students
and post-doctoral researchers

APPLY NOW AND UP UNTIL 25 JULY 2021

Human Brain Project

Come learn more about theoretical neuroscience

WHY JOIN?

- 10 days of intensive training in computational neuroscience provided by researchers from all over Europe
- Small scale event: **get to connect!**
- A complete program:
 - Cellular models, and models of brain signals
 - Circuit models and networks
 - Mean-field models
 - Whole-brain models
- Hands-on learning schedule based on:
 - Morning classes and tutorials
 - Group projects in the afternoon
 - Free time in the evenings to visit Paris
